

# So What's Your Focus?

Focus is the key to Spiritual maturity and success in the Kingdom. Correct focus will take My thoughts and apply them to your blueprint which you have created in your imagination. When I created the universe I did it with a blueprint and My words. It works exactly the same for you. Ask Me questions as to what that means and I will show you pictures that will create Hope (your blueprint) that you can aim for.

Distraction and loss of Peace are the two main weapons the enemy uses to slow down or stop My Warriors. Wrong focus will draw you away from My Kingdom business and render you off track and powerless to work in and for the Kingdom.

It is the enemy's sole endeavor to keep your focus on something else. It can be good things or bad things, just as long as your focus is not on My things. By distracting you or removing your peace, the enemy will stop your ability to hear and that stops the flow of the Spirit in you. I never stop flowing; you just step out of My flow.
